1	Subject	HEALTH POLICY AND PROMOTION OF ORAL HEALTH							
2	Code	DZP 316							
3	Study Program		Study Program of Integrated studies in dental medicine						
4	Organizing Instituti Institute, Chair, De		(Unit, Faculty of Dental Medicine; Department of Oral Pathology and						
5	Educational degree second cycle)								
6	Study year/semester			Imber of edits					
7	Teacher		Professors from the relevant departments						
8	Preconditions		1						
9		goals (competences): Introducing students to the importance of promoting oral health, the role of the licies for promoting oral health							
10	Brief content					Class			
	Theoretical course								
	Health policy, definition and their impact on improving the oral health. Optimal oral health, limiting factors for achieving optimal oral health, dental treatment planning with the aim of achieving the optimal oral health. Determinants of health, essential elements of promoting oral health, social factors and oral health, social class and other social factors related to oral health, social factors and dental health education, strategies for improving the oral health.								
	Total					15			
	Seminars								
	Elaboration of topics related to methodological units of theoretical course. Students are required to write a professional paper about the impact of dental interventions in the improvement of the oral health. Topics will be covered by the students in a form of a written document and a lecture presentation.

18	Requirement for signature and taking the final exam	The student is required to actively follow all of the planned activities. Conditional criteria for assessment of knowledge: In order to get a signature, the student should obtain minimum points in both theoretical and practical courses, and to present seminar paper; In order to take the final exam, the student should obtain the minimum 24 points from activity and test; If the student has not obtained the minimum 24 points in the continual assessments, he/she in next exam session will have paper part of the exam (40 points) and oral final exam (60 points)							
19	Language of the course	English language							
20	Method for evaluation of the quality of education	Students' anonymous self-evaluation of the subject, teachers and collaborators involved in the educational activities, as well as the portion of students that will successfully pass the subject.
