

Dragana Gabrić is Assistant Professor and senior research scientist at the University of Zagreb, School of Dental Medicine. She received her Ph.D. degree in Oral Surgery, experimental laser bone surgery research field (2010), from the University of Zagreb. She has numerous research visits to Germany, Slovenia, Serbia and Macedonia.

She currently teaches undergraduate, graduate and doctoral level core courses (Oral Surgery, Preclinical Oral Surgery, Dental Implantology, Preprosthetic Surgery, Surgical Prosthodontics, Current Concepts of Local Anesthesia)

Her research, clinical and professional interests include minimally invasive techniques in dental implantology, augmentative techniques in oral surgery, platelet rich fibrin usage for bone defects, laser-assisted soft and bone tissue surgery.

She was a member of one national project of Ministry of Science, Education and Sport ("Healing of defects after immediate implant placement"). She has been involved in the international collaboration (School of Dental Medicine, University of Skopje, Republic of Macedonia; King's College London, UK; University of Greenwich, UK) "Histological and ultrastructural evaluation of bone healing after Er:YAG laser, piezotome and surgical drill osteotomy – in vivo study", serving as a supervisor of a PhD student who is doing research on the healing of bone defects after usage of different surgical methods for bone preparation on experimental animals.

She has published 127 papers (16 in CC and 1 in Sci base) and conference proceedings (18 in CC and 3 in SCI base), 10 papers in Index Medicus-Medline, Scopus, 31 conference papers in Index Medicus-Medline, Scopus; 34 papers in other journals, 12 other conference proceedings, 2 elaborates on English and Russian languages; 4 chapters in international and domestic professional books.

She has been active in organising national and international congress, conferences and workshops and active participant of many international scientific and professional courses and congresses. She was invited speaker of several international scientific and professional courses, congresses and Universities (China, Hong Kong, France, Germany, Hungary, Spain, Ukraine, Slovenia, Serbia, Bosnia and Herzegovina, Macedonia, Montenegro, Bulgaria).

She is member of Croatian Chamber of Dental Medicine, Croatian Society of Oral Surgeons, Croatian Association for Dental Implantology, Croatian Medical Association, Croatian Society for Maxillofacial, Plastic and Reconstructive Surgery of the Face and Neck, Laser and Health Academy and reviewer for several international scientific journals (Journal of Periodontology, Acta Stomatologica Croatica, Journal of Cranio-Maxillary Diseases, Microscopy and Microanalysis, Journal of Laser, Optics & Photonics).
