Annex No. 3		First cycle study program			
1.	Title of courses	Prevention of Oral Diseases			
2.	Code	PDTEOP2			
3.	Study Program	Professional Dental Technicians			
4.	Organizer of the study program (unit, i.e. institute, department, division)	UKIM - Faculty of Dentistry – Skopje, Department of Children and preventive dentistry			
5.	Degree (first, second, third cycle)	I cycle			
6.	Academic year/semester	Year	2	semester	3
7.	Course load expressed in ECTS credits	3			
8.	Teacher (in case of multiple teachers, a responsible teacher is appointed)	Prof. Dr. Elizabeta Gjorgjievska and teachers from the Department of Children and preventive dentistry			
9.	Course language	English			
10.	Necessary prerequisites for listening to and passing the course	n.a.			
11.	Course objectives (competencies) and learning outcomes:	Students will gain broader knowledge in the field of preventive dentistry, plaque-associated diseases (dental caries and periodontal disease) and the possibilities for their prevention			
12.	Detailed content of the course by chapters and units with learning outcomes for each chapter	Theoretical teaching Chapter 1 - introduction to preventive dentistry 1 class <i>Outcomes of the 1st chapter: introduction and familiarization of students with the subject matter</i> Chapter 2 – Caries - etiopathogenesis of dental caries 1 class			

		- dental plaque 1 class - use of fluorides 1 class - control of intake of refined carbohydrates and sealing of fissures 1 class - preventive dental programs 1 class <i>Results of Chapter 2 introducing students to preventive methods for combating caries</i> Chapter 3 – Periodontopathy - etiopathogenesis of periodontitis 1 class - ways and methods of prevention 1 class <i>Outcomes of Chapter 3 introducing students to the basics of reducing the incidence of periodontitis in the population</i> Chapter 4 - Malignant diseases in the oral cavity - etiopathogenesis and methods of prevention 1 class <i>Outcomes of Chapter 4 - the student will focus on education regarding casuistry and prevention of malignant diseases in the oral cavity</i> Chapter 5 – Occupational diseases - etiology 1 class - Prevention 1 class <i>Outcomes of Chapter 5 - the student will focus on education regarding preserving the health of patients and dental teams.</i> Chapter 6 – Prevention of dental appliances - Implications for oral hygiene in orthodontics 1 class - Implications for oral hygiene in prosthetics 1 class <i>Outcomes of chapter 6 - the student will focus on education regarding the preservation of the health of patients with fixed and mobile dental constructions</i> Chapter 7 – Dental education - dental education (methods and models) 2 classes <i>Outcomes of chapter 7 - introducing the students to the basics of dental education</i> Total: 15 classes <i>Exercises:</i> For each of the above theoretical methodological units, students will conduct literature review and prepare seminar papers on oral diseases prevention, which they will present to fellow students and the responsible teacher Total: 15 classes		
13.	Interrelationship of courses	/		
14.	Detailed description of the teaching and working methods for the subject	Interactive teaching, laboratory or clinical exercises, work in small groups, presentation and performance of laboratory procedures, demonstration of instruments and methods used, teamwork (according to the specifics of the subject)		
15.	Total available classes fund	90 classes		
16.	Forms of teaching activities	16.1.	Lectures - theoretical teaching, classes	15
		16.2.	Exercises (laboratory, classroom), seminars, teamwork: classes	15
		16.3.	Practice: classes	
17.	Other forms of activities	17.1.	Project work: classes	
		17.2.	Individual work: classes	20
		17.3.	Homework - tasks	40
18.	Signature requirements	Attending 60% of the theoretical teaching.		

19	Method of the evaluation					
	19.1.	Tests: points			50 points	
	19.2.	Seminar work/project, written and oral presentation: points			10 points	
	19.3.	Final exam: points			40 points	
20	Evaluation criteria (points/grade)			up to 59 points	5 (five) (F)	
				from 60 to 68 points	6 (six) (E)	
				from 69 to 76 points	7 (seven) (D)	
				from 77 to 84 points	8 (eight) (C)	
				from 85 to 92 points	9 (nine) (B)	
				from 93 to 100 points	10 (ten) (A)	
21.	Method of monitoring the quality of teaching			Self-evaluation by students, control of assistants in carrying out practical teaching and assessment of the achieved success of students, as well as the pass rate of students who have passed the course
